

On the menu this term...

Castle Crusaders

Try one starter, one main course and one dessert task to complete or as many as you wish!

Starters

DT: Make a medieval shield for a knight to use. This can be made out of any material, but must be fit for purpose, so it needs to protect your body and be held on your arm. Think about how you join the materials.

History: Step back in time and take a visit to a museum. Write a short fact file about one of the exhibits and what you learned about the past.

Art: Design a flag with your family crest. You will have to create this together, thinking of images that represents your own family and culture.

Main Course

English: Retell your favourite fairy tale with you as the main character. Draw a story map to show the main events and help you keep on track of the sequence of the story.

Maths: To learn the pairs of numbers that make 5, 10 or 20.
Practice counting to 20, 50 or beyond.
These counting songs are great fun!
<https://www.youtube.com/watch?v=eOdJWfQHF8Y>

<https://www.youtube.com/watch?v=OTgLfF3PMOc>
Practice counting in 2s, 5s, and 10s.
Build a 3D model of a castle—what real life 3D shapes have you used?

Science: What can you find out about nocturnal animals? How have they adapted to coming out at night? Choose how to present your information.

Computing: Use a paint program to draw a picture of a castle or palace.

Dessert

Speaking and Listening: Have you any news from home that you would like to share? Or could you bring in your favourite book to share with us and talk about why you like it?

SMSC: Bring in a photograph of you on a family outing. This could be a trip to museum, castle, zoo or a special location. Share this with the class and talk about what you enjoyed or perhaps something you have learnt!

Due date - WB Monday 10th February 2020

Support (websites)

Our next class text will be Prince Cinders by Babette Cole. There is an animated version of this on youtube that you could watch.
