

Year 5 and 6 - Week 4 - Home Learning Menu

On the menu this week...

We have a range of projects and activities, some of which can be completed on the computer and others which can be completed with resources you will find at home. Have fun and remember to email us with your successes and achievements.

Starters

Spelling: Rainbow Words

Continue to practise the Year 3/4 and 5/6 spellings from your reading record. Could you choose some tricky words and write them out as *rainbow words*? (Writing over the same word in different coloured pencils to give a rainbow effect)

Reading: Classics

Have you ever read many classic books? These are stories that will be familiar to your parents and grandparents. [Here is a website](#) which has a range of classic stories for you to read such as 'Black Beauty' by Anna Sewell and other books by the author of 'Little Women'.

PSHE: Personal safety

Choose a place such as home, school or using the road (road safety) and make a poster with guidance about what we can do to keep safe there. Perhaps you could display this in your window.

Main Course

Maths: Keeping Skills Sharp

Remember to keep practising your number facts daily using Daily Ten or Conker Kirfs. You could also teach a member of your family a Maths game such as *Nice or Nasty*, *Dotty Six*, or *Square it*. The rules for these can be found on the NRICH website if you cannot remember them.

Science: STEM

Look at the starters for STEM activities on the attached sheet and try out some of the activities. Think about how you could work scientifically by asking questions, making predictions and recording your results. Let us know how you get on.

Geography: Cities

Can you find a city for each letter of the alphabet? If you have an atlas try to locate that city on a world map or alternatively you could use Google Maps.

History: Florence Nightingale

Florence Nightingale is a famous woman who's hard work and kindness is still remembered today. Many of you may have learnt about her in Key Stage One. You could create a 3d pop up book about the life of Florence Nightingale using information that you already know or by researching to find out more. [Here is a video with some examples of 3D books made by children.](#)

Dessert

Art: David Hockney

David Hockney, a famous artist from Yorkshire now lives in France. He has created some lovely Spring Art work using his Ipad. Research his work and try to recreate it or present your findings in an interesting way. [Click here for a useful link.](#)

Be Creative:

Record a weather chart for the week. You could write a script for a weather forecast and film it. You could add animations and images if you have an app such as iMovie.

Additional Notes:

You should read for at least 30 minutes each day (the more the better). You should also practise your multiplication tables every day. If there are any aspects of Maths or SPag that you do not understand, we challenge you to work on that using one of the websites on the sheet.

Other useful Websites:

Audible – A variety of free books to read online.

First News – A free online digital download of a specialist children's newspaper.
