

Week 2 —Home Learning Menu

On the menu this week...

We have a range of projects and activities, some of which can be completed on the computer and others which can be completed with resources you will find at home. Have fun!

Starters

English and spelling: Continue to practise the Year 3/4 5/6 spellings from your reading record. Using the following link, listen to a book and answer the questions on your guided reading mat. Add a paragraph of recommendation for another child.

<https://stories.audible.com/discovery>

Music: Make a playlist to comfort, inspire, entertain and bring joy to those isolated at home in 2020's Britain.

PE—Create a ten minute workout to share with your family every day. Remember to warm up and cool down.

Main Course

Maths: Revise number facts using Daily Ten/Conker Kirfs.

Complete as many of our NRich challenges as you can this week. If you complete them all, find or create some of your own.

Science and History: Research a famous scientist who has been instrumental in the world of medicine. What did they discover or invent? How has that helped us today? Present your findings in an interesting way.

French: Practise your French using the following websites. Can you learn one of the songs?

<https://www.bbc.co.uk/bitesize/subjects/z39d7ty>

<https://www.french-games.net/frenchtopics>

Geography—How many capital cities do you know? Research and try to learn at least 20 capital cities around the world. Choose one or two to research further and display your findings.

Dessert

Art: We were looking at Pop Art last week and the colourful work of Andy Warhol and Roy Lichtenstein. Research further and create your own piece of Pop Art.

Be Creative—Learn a new skill, sewing, singing, poetry writing, cooking, rapping—the list is endless. Remember that if at first you don't succeed, try, try again. Surprise us!

Additional Notes:

You should read for at least 30 minutes each day (the more the better). You should also practise your multiplication tables every day. If there are any aspects of Maths or SPaG that you do not understand, we challenge you to work on that using one of the websites on the sheet.
